

ASE Releases Motor Trade VAT Manual

Navigate your way through the complex world of VAT

VAT Manual

ASE are pleased to announce the release of our Motor Trade VAT Manual, a unique tool to help you navigate your way through the complex world of VAT in a motor dealership.

The manual covers everything a dealership accountant needs to know about VAT, from the basic rules applying to all traders through to detailed coverage of the key areas which consistently cause problems for dealers. The manual is the ideal reference guide for daily use in a dealership to ensure that the VAT affairs of the company are in the best possible state.

The manual is currently available in hard copy form. Updates will be issued on a regular basis for changes in law and HMRC practice. The first four quarters updates are included within the upfront price.

The VAT manual gives you an up to date source of reference on VAT that specifically deals with the motor trade and means you always have somewhere to look for answers to your VAT questions.

Access to the VAT helpline gives you comfort that you have someone knowledgeable to talk to about any VAT issues you face and allows you to get advice tailored to your individual business circumstances.

VAT Helpline

ASE would also like to inform you about our VAT helpline. Previously only available to our audit clients, we are now extending this service to all motor retailers.

Our VAT helpline gives your nominated staff direct access to our VAT specialists to deal with any queries they may have and access to the helpline is unlimited (subject only to a reasonable use policy).
